**Reduce your training cost with customized training and instruction. We offer complete freefall training and refresher courses for all experience levels from First Jump Course to HALO Tethered Tandem Bundle Instructor.**

#### **Basic Military Freefall Course with Bundle Jump Introduction**

Basic training course from First Jump Course to FAI A-License level including introductory bundle jumps with personal equipment/rucksack up to 40 kg. The initial jumps will be conducted using the Accelerated Free Fall method (AFF).

#### **Jumpmaster & Coach Courses**

Instructional Rating Courses can be conducted following ISIA, USPA or DFV guidelines and manuals or as customized training according to client-specific requirements.

#### **SL/IAD Instructor Course**

Instructional Rating Courses can be conducted following ISIA, USPA or DFV guidelines and manuals or as customized training according to client-specific requirements.

#### **AFF Instructor Course**

Instructional Rating Courses can be conducted following ISIA, USPA or DFV guidelines and manuals or as customized training according to client-specific requirements.

#### **Basic Drogue Fall, Bundle & Cargo Training**

The course provides drogue system familiarization including rigging and emergency procedures as well as introductory bundle jumps with personal equipment/rucksack or cargo up to 100 kg.

#### **Basic Oxygen & HALO Training**

Introductory course for high altitude jumps up to FL 250 utilizing personal oxygen equipment.

#### **Basic HAHO & Teamwork Training**

Advanced Training for oxygen jumps as a team using HAHO techniques.

#### **Tandem/Tandem Cargo Course**

Instructional Rating Courses can be conducted following ISIA, USPA, DFV and/or Manufacturers guidelines and manuals or as customized training according to client-specific requirements.

#### **» Tandem Tethered Bundle Training**

Advanced course for experienced Tandem Instructors.

The course provides training for aerial delivery jumps with ca. 300 kg exit weight.

AIRCREW Military is the first commercial Tethered Tandem Bundle training facility outside the USA.

#### **K9 Course**

This course covers the basics for Tandem Instructors to jump with dog handlers and their dogs or alternatively enables tandem qualified dog handlers to jump with their K9 passengers solo.

#### **Specialized Equipment Development & Testing**

AIRCREW develops specialized equipment according to client-specific requirements such as basic navigational consoles, HALO/HAHO equipment solutions (e.g. ATC-Transponders), instructional training aids and tools for various applications (e.g. Heavy Cargo Dummies and TTB Training Systems).

We also test and evaluate for other manufacturers and customers. We are also dealers for a selection of fine accessories, heavy duty gear and sophisticated parachute equipment.

### **Consulting**

AIRCREW provides advice concerning equipment and training related questions or problems.
